## MULE FAMILY FEATURES A FULL LINEUP OF TRUSTED, TRIED AND TRUE MACHINES

The iconic Kawasaki MULE™ family has a Trusted, Tried and True machine for any need you may have on the job site with the MULE SX™ lineup and the four-wheel-drive MULE 4010 4x4 models and the rear-wheel drive MULE 4000 side x sides.

Select models from the 2020 Kawasaki MULE SX™ family of side x side vehicles are available with digital fuel injection, making the compact, capable vehicles even more user-friendly. All MULE SX models include the winter kit standard, which facilitates starting in colder conditions.

The compact MULE SX takes many of the same styling cues from its sibling the MULE PRO line of side x sides. The MULE SX, like all MULE™ products, are Trusted, Tried and True. This durable workhorse easily fits in the bed of a full-size pickup truck for easy transport. The MULE SX side x side is available in seven configurations (five featuring fuel injection), starting with the standard SX two-wheel-drive model up to the XC options.

The MULE 4010 and MULE 4000 models have a wide variety of Kawasaki Genuine Accessories to add even more comfort, convenience and capability including both a hard cab and a soft cab, winches, windshields and skid plates and are all backed by the Kawasaki STRONG 3-year warranty. All of the MULE 4010 and MULE 4000 models are available through Kawasaki's Government and Fleet sales programs as well.

The entire MULE lineup is assembled in Lincoln, Nebraska from domestic and imported parts and is built to be the hardest worker on the jobsite.
