

New Model Press Release

July 7, 2020

DO NOT RELEASE BEFORE JULY 7, 2020

2021 KAWASAKI KLX[®] MODEL RANGE

GET OUT AND PLAY

A fan favorite, the Kawasaki KLX[®] family of off-road motorcycles are widely popular for their low maintenance, easy-to-ride character, and incredible capabilities while out on the trails. Completing the rest of the 2021 KLX family line up are five additional models, which consist of four engine configurations and are built to suit a variety of riders.

The KLX[®]300R off-road motorcycle bridges the gap between a weekend play bike and a full race bike. As the flagship of the KLX[®] lineup, the KLX300R combines the best of both engine and chassis performance to create the ultimate lightweight, fun off-road machine. The powerful 292cc fuel-injected, liquid-cooled four-stroke engine features an electric starter and keyless ignition. It has a user-friendly smooth-shifting six-speed transmission and manual clutch. The KLX300R comes equipped with full-size off-road wheels and tires, using a 21" front and 18" rear, and long travel suspension for optimal ground clearance.

The KLX[®]230 dual-purpose motorcycle is built to take riders to new places. Taking cues from the KX[™] line and Kawasaki's racing heritage, this street legal, dual-purpose motorcycle has been designed to enable riders to get out of town and enjoy the trails with confidence. A smooth and reliable powerful, 233cc fuel-injected, air-cooled engine has been paired with an easy-to-use smooth-shifting six-speed transmission and manual clutch, and a compact steel perimeter frame, which were all designed with trail riding in mind. Full-size wheels, long-travel suspension, and ample ground clearance contribute to the off-road capability of the KLX230 motorcycle. Front and rear disc brakes supported by Kawasaki's first dual-purpose ABS provide sure stopping power when riding on trails as well as on-road.

The KLX[®]140R F motorcycle is the third variation of the KLX 140 models and is designed to provide a natural terrain experience with memories to last a lifetime. The powerful 144cc, four-stroke, air-cooled, single-cylinder engine features an electric starter and keyless ignition. Its broad and smooth high-revving 144cc engine utilizes a manual clutch and five-speed transmission to offer an efficient and user-friendly feel. The KLX[®]140R F comes equipped with full-size off-road wheels and tires, using a 21" front and 18" rear.

The KLX[®]110R is a great motorcycle for a new rider who is looking to experience off-road for the first time. A high-tensile steel frame, 30mm telescopic fork, and single rear shock provide easy handling and maximum longevity. It also incorporates an automatic centrifugal clutch system that allows easy take off and shifting through the gears, helping the rider maintain focus on the terrain and to make the most of the 112cc single-cylinder, four-stroke engine. The larger KLX[®]110R L motorcycle has a taller seat height (28.7" compared to 26.8" for the KLX110R), longer suspension travel, an extra 1.9" of ground clearance and a four-speed transmission with a manual clutch. No matter your size or skill level, there is a KLX model motorcycle to allow you to get out and play with Kawasaki.

ABOUT KAWASAKI

Kawasaki Heavy Industries, Ltd. (KHI) started full-scale production of motorcycles over a half century ago. The first Kawasaki motorcycle engine was designed based on technical know-how garnered from the development and production of aircraft engines, and Kawasaki's entry into the motorcycle industry was driven by the company's constant effort to develop new technologies. Numerous new Kawasaki models introduced over the years have helped shape the market, and in the process have created enduring legends based on their unique engineering, power, design and riding pleasure. In the future, Kawasaki's commitment to maintaining and furthering these strengths will surely give birth to new legends.

Kawasaki Motors Corp., U.S.A. (KMC) markets and distributes Kawasaki motorcycles, ATVs, side x sides, and Jet Ski® watercraft through a network of approximately 1,100 independent retailers, with close to an additional 7,700 retailers specializing in general purpose engines. KMC and its affiliates employ nearly 3,100 people in the United States, with approximately 260 of them located at KMC's Foothill Ranch, California headquarters.

Kawasaki's tagline, "Let the good times roll.®", is recognized worldwide. The Kawasaki brand is synonymous with powerful, stylish and category-leading vehicles. Information about Kawasaki's complete line of powersports products and Kawasaki affiliates can be found on the Internet at www.kawasaki.com.
