

Guards/Cab Frame

This diagram illustrates the assembly of a vehicle chassis, showing the relationship between various components and their mounting points on a reference frame. Key parts and labels include:

- Reference Frame:** The main structural component, labeled "Ref. Frame".
- Front End Components:**
 - 39042A, 39042, 39043, 39043A:** Longitudinal beams or rails.
 - 55047, 55047A:** Cross members or brackets.
 - 130C:** Bolts or fasteners used for securing the front beams.
 - 92154:** A component at the front left corner.
 - 92210A, 92210, 92210B:** Various brackets and fasteners for the front suspension area.
 - 130A, 130B:** Additional fasteners.
 - 92152A:** A component at the front left corner.
- Side and Rear Components:**
 - 55020:** A large side bracket or cross member.
 - 92066:** A component at the rear left corner.
 - 92153:** A component at the rear left corner.
 - 92022:** A component at the rear center.
 - 92152, 92172:** Components at the rear bottom.
 - 55020A, 55020B:** Components at the rear bottom.
- Assembly Points:** Indicated by circles labeled **(A)** and **(B)**.
- Directional Arrow:** A "FRONT" arrow pointing towards the top left of the diagram.
