

Muffler(s)

This diagram illustrates the assembly of the rear suspension components. The main parts shown are the **Ref. Swingarm** and the **Shock Absorber (18091)**. The assembly is shown in an exploded view to indicate the correct placement of various fasteners.

Key Components and Fasteners:

- Shock Absorber (18091):** The central component being installed.
- Swingarm (Ref. Swingarm):** The lower component that the shock absorber mounts to.
- Fasteners:**
 - 92210:** A bolt used to secure the top of the shock absorber to the frame.
 - 18088:** A long bolt used to secure the top of the shock absorber to the frame.
 - 11061A:** A washer or spacer used in the top mounting.
 - 172:** A small bolt or pin used in the top mounting.
 - 130A:** A bolt used to secure the bottom of the shock absorber to the swingarm.
 - 11061:** A washer or spacer used in the bottom mounting.
 - 130:** A small bolt or pin used in the bottom mounting.
 - 92202:** A small washer or spacer used in the bottom mounting.
 - 92200:** A small washer or spacer used in the bottom mounting.

Assembly Notes:

- The diagram includes a **FRONT** arrow pointing towards the top left, indicating the orientation of the motorcycle.
- Reference **A** is used to point to specific mounting points on the swingarm and shock absorber.
