92055

This diagram shows the engine cover assembly. The main component is the 'Ref. Engine Cover', a large rectangular plate. A circular flange with two mounting brackets is attached to the front. A spring (92037) is shown connecting the flange to a bracket (16082) on the engine cover. A washer (92055) is shown between the spring and the bracket. A nut (311) is shown on the bracket. A curved hose (92059) is shown connected to the bracket. Two screws (92037) are shown securing the hose to the bracket.
