

Rear Fender(s)

Let the Good Times Roll®

This diagram illustrates the assembly of a motorcycle seat, showing the relationship between various components and their fasteners. The components are labeled as follows:

- Seat Shell (14091):** The main body of the seat.
- Seat Cushion (14091A):** The internal padding component.
- Seat Base (55020):** The mounting bracket for the seat.
- Seat Base Mounting Bracket (55020A):** The bracket that connects the seat base to the motorcycle frame.
- Seat Cover (35023/A/B):** The outer protective layer.
- Seat Mounting Bracket (16073):** The bracket that connects the seat to the motorcycle frame.
- Fasteners:**
 - 92153A:** Screws used for the seat cover and cushion.
 - 92153B:** Screws used for the seat base mounting bracket.
 - 92152:** Washers used for the seat base mounting bracket.
 - 92161:** Spacers used for the seat base mounting bracket.
 - 92172:** Screws used for the seat shell and cushion.
 - 92210:** Screws used for the seat shell and cushion.
 - 92161A:** Washers used for the seat shell and cushion.
 - 92033:** Screws used for the seat shell and cushion.

The diagram shows the seat being assembled onto the motorcycle frame, with the seat base mounting bracket (55020A) connecting the seat base (55020) to the frame. The seat shell (14091) and cushion (14091A) are shown being attached to the seat base using various fasteners. The seat cover (35023/A/B) is shown being attached to the seat shell using screws (92153A) and washers (92161A). The seat mounting bracket (16073) is shown being attached to the seat shell using screws (92172) and washers (92161A). The seat is shown in an exploded view, indicating the sequence of assembly.
