(51090/A) (GKF/GLF)

A technical drawing of a mechanical part, identified as (51091) and (GLF). The part has a complex, somewhat oval shape with internal features. A label "Orange" points to a specific area on the right side, and a label "Black" points to a central circular feature. The drawing is enclosed in a rectangular frame.

(51090B) (GKFA)

Green

The diagram shows a top-down view of a battery. It has a rectangular shape with rounded corners. On the left side, there is a circular terminal. On the right side, there is a larger circular terminal with a central protrusion. The text 'Green' is written above the right terminal, with a line pointing to it. The text '(51090B)' is written in the top left corner, and '(GKFA)' is written in the top right corner.

Diagram illustrating the components of the Green (GLFA) and (51091A) system. The top part shows a cross-section of the Green (GLFA) component, which is a large, irregularly shaped container. It features a central circular opening with a smaller circular component inside. The label "Green" points to the main body of this component. The bottom part shows a side view of the (51091A) component, which is a smaller, elongated container with a circular opening at one end and a small protrusion at the other.
